SIEGEL'S SEEDS

WILL GROW

They are the Best that can be Produced

February 1, 1907.

To My Friends and Patrons:

In no other article of merchandise should **Quality** count more than in **Seeds**; since their first cost, at highest prices is trifling compared with the labor and expense that must be put upon them afterwards. **We contract** each season for our supply with the best growers and with our method of double testing seeds, we feel confident there are none **Better than ours**. **They are sure to grow**.

Prices will rule high again this season on certain seeds, especially is this true of Onion Seed.

How to Order. By writing out your order plainly on a separate sheet from letter, or by filling out enclosed order sheet. Give your full name and address, Post Office, County and State, and Free Delivery Number; also indicate very precisely the means of carriage which you prefer, whether by Express, Freight or Mail. Cash must accompany all orders. **No Goods Sent C. O. D.** Money should be sent by Post Office Order, Express Order, Bank Draft or Registered Letter. Small amounts will be accepted in Postage Stamps. Remittances in any other way are entirely at sender's risk.

Private Checks. Do not send your check for small amounts, because it costs 15 cents extra for collection, and besides orders are held until my bankers report private checks paid. This causes needless trouble and delay in filling orders. Always carry out the price of each article and after adding the amounts together, remit the exact sum.

Seeds by Mail cost 8 cents per pound, and for small quantities this is the cheapest and best way to order them. We will mail, postpaid at our expense, all orders for seeds in packets, ounces and quarter pounds, except Peas, Beans and Corn, which must be paid by the purchaser at the rate of 8c for Pints, 15c for Quarts.

By Express. Moderate orders, too heavy or expensive for the mails, or where quick time is desired, can be sent to your nearest express office.

Advice. Order your Seeds Early. Do not wait until you actually need them. The Railroads are sometimes very slow in delivering. **Anticipate your wants now**; let the Seed lie in your granary awhile, if need be; you will have it then the moment you want to sow it.

NOTICE. Geo. L. Siegel gives no warranty, expressed or implied, as to description, quality, productiveness, or in any other matter of any Seeds, Bulbs, or Plants he sends out, and he will not be in any way responsible for the crop. If the purchaser does not accept the goods on these terms, they are to be returned at once.

Gray Stone (New Sort.) Globe shaped, with grey head, grows the quickest of all white fleshed varieties; it is a Danish variety and is prized very highly there. Give it a trial	05	08	25	1 00

RUTA BAGA, or Swede Turnip.

Laing's Improved Yellow Purple Top. The finest for this section	03	05	15	50
White Russian. White skinned; very sweet and desirable for table use	03	05	15	50
Canadian Tarkard Swede. This is the yellow purple top Rutabaga so popular in Canada, and of which hundreds of cars are shipped to the States each season	03	07	20	65

TOMATO.

Our Seed is Extra Selected.

Sparks Earliana. The earliest large smooth, red Tomato in existence. The Truckers and Gardeners of Delaware and Maryland have made more money the last two years on Earliana Tomato than on all other crops; our stock is pure	05	20	20	3 00
Chalk's Early Jewel. The largest, smoothest and finest flavored extra early tomato in cultivation; within a few days as early as the famous Spark's Earliana. The large, handsome fruits are very solid and deep through. Color brightest scarlet. The foliage is rather open, admitting the sunlight to the center of each plant, so that all the fruit ripens thoroughly	05	20	75	3 00
New Dwarf Stone Extra Early. This Tomato combines all the good qualities of the popular Stone. A heavy cropper, extra early and of dwarf habit. It is bound to become popular. It is one of the best sorts for small gardens	05	20	75	3 00
Beauty, Livingstone's. Old stand-by; purple tinge	03	15	60	2 25
New Stone...The best all around main crop Tomato.	03	15	60	2 25

HERBS

Sweet, Pot and Medicinal

	Packet	Ounce
Chervil. Used for flavoring and garnishing	\$0 05	\$0 15
Dill. Used mostly for flavoring pickles	05	10
Cress. Fine curled or pepper grass	05	07
Sage. Highly aromatic; most useful	05	20
Summer Savory or Bonekrait. Used as a culinary herb	05	10
Sweet Majoram. Used for seasoning	05	20
Thyme. Used for seasoning	05	35

NOTICE.—We ship all Corn in Jute Sacks free; if wanted in Bags, add 20c each.

Potatoes Grown Especially for Seed

We book orders at any time, and fill them in rotation, just as soon as the weather will permit. We will ship at any time when requested to do so, regardless of the weather, but customers must take their own risk.

NOTICE.—Our bbl. price means 165 lbs., potatoes in Heavy Gunny Sacks. If wanted in Wooden Barrels add 35c per barrel.

Our **Second Size** are culled from the firsts.

The **Early Michigan**, without exception, is the handsomest Extra Early Potato grown. The flesh is snowy white, shape oblong. Price, per pk., 30c; ½ bu., 50c; bu., 90c; bbl., \$2.30; second size (while they last) per bu., 65c.

Irish Cobblers. These are extra early potatoes, first in the market, and bring highest prices, producing plump, handsome round white tubers of good size and excellent quality. Price per pk., 30c; ½ bu., 50c; bu., 90c; bbl., \$2.30; second size, per bu., 65c.

Bovee. It is an Extra Early Rose-Tinted Potato. This variety in competitive trial has outyielded all other early varieties.

Price per pk., 30c; ½ bu. 50c; bu., 90c; per bbl. \$2.30; second size, 65c per bu.

Our prices might seem high compared to eating stock, but compare them with other seedsmen before buying.

Prices of Standard Poultry Supplies, Etc.

By Standard we mean the Very Best Goods Known to the Most Successful Poultrymen. We Guarantee Them to be The Best Obtainable.

Siegel's Excelsior Chick Food

A Complete, Scientifically-Compounded Food for Young Chicks.

Siegel's Excelsior Chick Food is a mixture of 17 different grains and seeds, proportioned correctly so as to meet all the needs of growing chicks and to fully nourish them, and no other food should be fed for the first eight weeks. It should be fed dry. By the term, "fully nourished," we mean a great deal. Most feeding stuffs contain too much fat-forming and not enough flesh-and-muscle forming elements; in consequence, the chick develops indigestion and diarrhoea, which ultimately means no digestion at all, and the chick soon starves to death. Or, if partially nourished, leg weakness develops and the chick drags out a miserable existence. In compounding Excelsior Chick Food, the protein or flesh-and-muscle-forming element is maintained high, the carbohydrate heat producing and the fat-forming elements are reduced to their proper proportion, and the ash or mineral elements are in sufficient amount to supply the needs of the rapidly growing bird. Price, 5 lb. bag, 20c; 10 lb. bag, 30c; 50 lb. bag, \$1.25; 100 lb. bag, \$2.00.

POULTRY SUPPLIES—Continued.

LEE'S SUREKIL LICE PAINT kills all body lice on poultry and hogs by simply painting, sprinkling or spraying it on roosts for poultry or on bedding for hogs. It is harmless to fowls and animals, but sure death to insects—not only by actual contact, but from the gas or vapor given off by it when exposed to the air. Prices, 1 qt. can, 35c; ½-gal. can, 60c; 1-gal. can, \$1.00; 5-gal. wood jacket can, \$4.00.

SPECIAL INCUBATOR THERMOMETER.

The tubes of these Thermometers are all thoroughly seasoned before they are tested.

Price each, 60c; 3, \$1.50, postpaid.

**IMPROVED CHAMPION LEG BAND.**

The oldest and most popular band on the market. This Band is made in one piece, in two sizes, adjustable to fit any fowl. They will stay where you put them. Held by double lock, it is impossible for them to lose off. Made of aluminum in two sizes, large size for Asiatic class and Turkeys; small sizes for

Plymouth Rocks and smaller breeds.

Price, postpaid, 12-15c, 25-30c, 50-50c, 100-80c. Numbered 1 to 100.

**DIRECTIONS.**

Bend broad part of the band on your finger to conform to shape of fowl's leg. Put small end through loop, draw through until it fits loosely on the leg, turn the end back, then bend the two lugs over the loose end as shown in cut. Cut off surplus with shears.

Pigeon Bands. Made from Aluminum with rounded edges; have two styles, the open and clasp style. Numbered from 1 to 100. Price same as Poultry Bands.

CYPHERS SAFETY BROODER STOVE**THE CHAMPION CHICK MARKER.**

Many times persons wish to mark young chicks in the web. This makes a permanent mark.

Price, postpaid, 25 cents.

Price, \$1.35.

POULTRY SUPPLIES—Continued.

CYPHER'S GALVANIZED DRINKING FOUNTAINS.

three 55c; medium size, each, 25c; three, 70c; large size, each 35c; three, \$1.00. Special duck size, each, 50c; three, \$1.25.

HALLOCK GALVANIZED FOOD AND WATER HOLDERS.

These Holders are easily cleaned because the tops and bottoms are easily separated with one hand. The wires prevent the fowls from getting into the food or water and soiling it.

Price, 1-gallon size, 75c; 2-gallon size, \$1.00; 3-gallon size, \$1.25.

Price of Stoneware Fountain:

2-qt. size.....each, 20c; per doz., \$2.00
 4-qt. size.....each, 25c; per doz., 2.60
 8-qt. size.....each, 35c; per doz., 4.00

CONKEY'S ROUP CURE

will positively cure Roup in all its forms. It is simply put in drinking water and the chicken takes its own medicine. It prevents colds, and is unequalled for canker, especially for pigeons. 50c package makes 25 gallons; \$1.00 package makes 75 gallons; postpaid.

DEATH TO LICE REMEDIES

LAMBERT'S POWDER for body lice; etc.

Price, 5-oz. box, 10c; 15-oz., 25; 48-oz., 50c.; 100-oz., \$1.00. Postpaid, 5-oz. box, 15c; 15-oz., 40c; 48-oz., \$1.00.

LIGHTNING LICE POWDER.—Lightning Lice Powder

kills lice instantly, on poultry, horses, cattle, dogs, and other animals. Cheap at any price, because it kills instantly, also works instantly on cabbage and currants, etc. Cheaper than others as it goes further. Price, 1/2-lb. can, 25c; 1-lb. can, 50c.

20th Century Turkey Blackhead and Cholera Cure. The only remedy known to cure this fatal disease. Price, 2 1/2-lb. package, 75c; not postpaid.

Conkey's Gape Cure. Guaranteed to surely rid your fowl of this dangerous disease, if directions are followed. Price, 50c, postpaid.

POULTRY SUPPLIES—Continued.

GRANITE CRYSTAL GRIT MAGNIFIED.

Crystal Formation.

BEFORE.

AFTER.

Being Acted Upon by the Gizzard.

This Grit is the best Grit on the market, sided. X size for brooder chicks; this size each crystal is sharp cornered and several makes the finest bird gravel for bottom of bird cages. XX for half-grown chickens. XXX for hens and turkeys. Price per 100 lb. sack, 65c; 3 sacks, \$1.80; 10 sacks, \$5.00.

Oyster Shell, crushed and well screened shell. Per 100 lb. sack, 60c; 3 sacks, \$1.65; 5 sacks, \$2.65; 10 sacks, \$5.00.

Raw Poultry Bone, in two sizes—granulated and fine. Price per lb., 4c; 10 lbs., 35c; 50 lbs., \$1.25; 100 lbs., \$2.25.

Foust's Pigeon and Health Grit. The best Pigeon Grit we know of. Price per 100 lb. bag, \$2.00.

Charcoal. Sold in two sizes, Granulated and Pulverized. Price, 1 lb., 5c; 10 lbs., 40c; 100 lbs., \$2.50.

Darling's High Protein Beef Scraps.—Guaranteed 65 per cent. protein. Feed liberally of these scraps. It is the greatest egg producer on earth. Give it a trial. 10 lbs. of scraps mixed with 90 lbs. of other mash food make an ideal laying food. Price, per lb., 4c; 10 lbs., 35c; 100 lbs., \$3.00.

Alfalfa Clover Meal.—Choice and pure. Cured without rain. Green as the day it was cut. This is also a great egg producer, also gives color to the yolk, and supplies the green food so much needed in the winter time. Price, per lb., 4c.; 10 lbs., 35c.; 50 lbs. sack, \$1.00; 100 lb., sack, \$1.80.

H-O Poultry Mash.—This is the best mash on the market. Guaranteed 17 per cent. protein. 1 lb. of H-O Mash Feed mixed with 13 ounces of water, is sufficient food for 12 hens. A little goes a great ways, bear this in mind. Take 80 lbs. of H-O Mash, 10 lbs. Alfalfa Meal, 10 lbs. Darling's Beef Scraps, and you have the greatest mash and egg producer on earth. Price per lb. 2c; 100 lb. sack, \$1.85.

UNION LOCK POULTRY FENCE

Patented July 12, 1893

and April 25, 1899.

Union Lock Poultry Fencing for poultry yards will supersede the old 2-inch mesh wire fence as soon as its merits become known. In the wider sizes it is no more expensive than the regular 2-inch mesh netting, and the fine mesh at the bottom will appeal to every practical raiser as a great advantage. It will yard the smallest chick and keep out rats and vermin. On account of the picket being at right angles to the cables this fence will fit any unevenness of the ground without cutting. Because of its strength and construction, this fence requires no top or bottom rail, and no more posts than the ordinary woven-wire stock fence, or about one-half the number needed for ordinary poultry netting.

Prices in full Bales only—each Bale is 165 feet long; 36 inches wide, \$3.15; 48 inches wide, \$3.85; 60 inches wide, \$4.35; 72 inches wide, \$4.85. A discount of 3 per cent. in 3 bale lots; 5 per cent. in 5 bale lots; 10 per cent. in 10 bale lots. Staples for fastening, 10c. per lb. All above free on cars at Erie.

We Sell the Genuine Cyphers Incubators

REASONS WHY YOU SHOULD BUY A GENUINE PATENT DIAPHRAGM,
NON-MOISTURE, SELF-VENTILATING AND SELF-REGULATING
STANDARD CYPHERS INCUBATOR.—LATEST PATTERN.

Artificial Incubation.—Years of experience have demonstrated the many advantages of artificial incubating and brooding over the old method,—the hen. The experimental stage has been passed, and the poultryman of to-day has but to decide which make of machine to buy—the one that will hatch the largest number of strong, vigorous and healthy chicks from a given number of fertile eggs, and with the least amount of expense and labor; also the brooder best equipped for taking care of the new life as soon as it is ready to leave the incubator.

The best possible test of an incubator is the work it actually does in the hands of the average operator. Tens of thousands of Cyphers Incubators have been sold since they were placed on the market, and their merit is attested in the following:

Warrant of Superiority:—Every genuine patented Standard Cyphers Incubator, latest pattern, is positively guaranteed as follows:

FIRST:—To require no supplied moisture under normal conditions, thus solving and disposing of the troublesome “moisture question.”

SECOND:—To be self-ventilating, the air in the egg chamber remaining pure at all times by its own gentle but positive action.

THIRD:—To be self-regulating, being equipped with the most sensitive and durable regulator thus far invented.

FOURTH:—To be so constructed that the temperature in the egg chamber is more equable than in any other incubator.

FIFTH:—To be precisely as represented in construction, materials and workmanship, and, if given reasonable care, to last ten years without repairs.

SIXTH:—To be easy to set up and positively automatic in operation (except as to trimming the wick, filling the lamp, and turning the eggs), and to operate with less labor and expense than any other make of incubator.

SEVENTH:—To be in all essentials the easiest and simplest to operate and control, requiring less attention than any other make or style of incubator in the world.

EIGHTH:—To produce larger, stronger and healthier chicks and ducklings than any other style or make of incubator.

NINTH:—That when it is run in competition with any incubator of a different make, it shall in three or more hatches, bring out a larger average percentage of the fertile eggs in good, healthy chicks and ducklings than does its competitor.

TENTH:—That each and every Standard Cyphers Incubator we send out will do satisfactory work in the hands of the purchaser, provided he will give it a fair trial, or it can be returned to us within ninety days, in good repair, less reasonable wear, and the purchase price will be refunded.

The World's Standard Hatcher

The genuine Standard Cyphers Incubators are not an experiment. They have been before the public ten years, and have received the benefit of ten years improvements. Their fame has grown until they are now acknowledged to be the "World's Standard Hatchers."

The latest pattern Standard Cyphers Incubator represents the highest degree of excellence yet achieved in incubators, both in principle and mechanical construction. It overcomes practically every defect, every inconvenience, and every objection urged to artificial incubation as performed by machines of other types. It not only is more convenient to operate; it not only consumes less oil; it not only is safer; it not only hatches a larger percentage of the eggs entrusted to it, but it produces larger, stronger, healthier and more vigorous chicks and ducklings than any incubator ever built. This is our guaranty to the poultry fraternity.

Standard Cyphers Incubators are used on more Government Experiment Farms, on more successful, large, commercial poultry plants, and by more successful fanciers, than all other incubators combined.

The Standard Cyphers is a hot-air incubator, and therefore does not possess a tin, galvanized iron or copper tank to rust out, spring a leak and water soak the machine, thereby injuring or ruining the woodwork. The improved regulator or thermostat used in the latest pattern Standard Cyphers is built on original lines, and no other style of regulator has been devised that is its equal in durability, exactness or reliability.

All sizes of the latest pattern Standard Cyphers Incubators are equipped with a "drop bottom" for supplying ventilation when the incubator is operated during the warm months of May, June, July and August. This new and valuable feature enables the operator to meet all conditions of weather.

The No. 2 and No. 3 latest pattern Standard Incubators are furnished with nursery drawers, the drawers occupying the nursery space underneath the egg trays, and are reached through solid wooden doors located below the glass panel door that opens into the upper portion of the hatching chambers where the egg trays are situated. These drawers will be found of great convenience in removing the chicks and ducklings from our large size incubators as often it may be deemed advisable without interfering in any way with the remainder of the hatch.

Cyphers Company Incubators are the only machines manufactured that lawfully can be equipped with our patented removable diaphragms, by use of which the "diffusive" system of ventilation is employed, overcoming the necessity of supplying additional moisture by use of shallow pans, wet sponges or moist cloths. This achievement has rendered Cyphers Incubators so simple and easy to operate and so certain in results that they have met with universal appreciation by experienced operators, while beginners succeed with them from the first trial because the machine itself solves the "moisture problem" for them; in other words, we place in their hands a practically automatic hatcher, leaving nothing to chance or inexperience.

By special arrangement with the manufacturers, we are now in a position to sell Cyphers Incubators f. o. b., at exactly factory prices, as follows:

No. 0,.....	66-egg size,.....	\$13.00
No. 1,.....	140-egg size,.....	20.00
No. 2,.....	240-egg size,.....	29.00
No. 3,.....	390-egg size,.....	35.00
Farm Economy, 110-egg size, \$12.00—Not Guaranteed.		
Boys' Choice,....	50-egg size,.....	\$12.00

If you are further interested in incubators or other Cyphers manufactures, send 10 cents to pay cost of mailing 260-page main incubator and brooder catalogue entitled "How to make money with Poultry and Incubators." 32-page descriptive circular and price list sent free.

When sending us money use this application. Take it to your Postmaster and procure a stamp. **IF YOU ORDER ON BLUE PAPER YOU MUST SEND ORDER TO PAYEE.**

Cypher's Unequaled Apartment Brooders

FURNISH A SAFE HOME FOR THE LARGE, STRONG AND VIGOROUS CHICKS
HATCHED IN CYPHERS INCUBATORS, INSURING RAPID GROWTH,
CONSTANT HEALTH, FINE FORM AND LUSTROUS PLUM-
AGE.—THESE BROODERS ARE CERTAINTY, SAFE-
TY AND SECURITY COMBINED.

Style A, Out-door Colony Brooder.

The Cyphers Style A Brooder furnishes a out-door home for little chicks that is as near weather-proof and neglect proof as can be bought and sold at a popular price. We have manufactured these brooders during the past nine years and the best proof of their merit is that tens of thousands have been sold and are giving the best of satisfaction.

Style A, Out-door Colony Brooder, size, 3x6 feet	\$14.00
Self-regulating Out-door Colony Brooder, size, 3x6 feet	17.00
Storm King, Out-door Colony Brooder, size, 3x6 feet	9.00

Don't risk losses of well-hatched chicks in an inferior, wrongly-constructed brooder when you can obtain a certainty of safety in the Cyphers Brooders. Having hatched your chicks, **DON'T COURT FAILURE** by putting them in an unsatisfactory brooder.

We have a few \$5.00 Champion Brooders left. Will keep on selling them at \$5.00 long as present stock lasts. We could not purchase these Brooders to-day in car lots at prices we will sell one at. Lumber as well as all other material used in building the Champion is almost double its former price; wages are also higher; so if you want a Champion, order at once, first come, first served.

The Champion Brooder is especially constructed for either outdoor or indoor use. They operate outdoors summer and winter; the strongest wind cannot blow out the lamp, which is protected from the wind by small wooden hoods over the ends of the radiator. Our lamp is a water jacket one, which effectually prevents all danger of explosions.
